Customising your handcrafted beverage

This guide can be used to understand the nutrition and allergen information for your finished beverages, including information for any customisations such as syrups, drizzles, whipped cream, sprinkles and cream cold foams.

Did you know?

Any of our coffee-based beverages can be customised with a different bean, based on your preference.

Bean Types

Signature Espresso is our standard bean type that is used to craft almost all our coffee-based beverages. It is a dark and more intense, full-bodied roast.

Starbucks Blonde® is incredibly smooth and subtly sweet, with a creamy mouthfeel.

Decaf Espresso uses our standard signature espresso bean in a decaffeinated form.

Starbucks® Christmas Blend Christmas blend is the perfect choice for the holiday season. It has a medium-dark intensity with tasting notes of spiced chocolate and spruce tips.
